PROJECTS

PLANTOGETHER | PLANTOGETHER.CO

Bootstrap, JS, AngularJS, Express, Node.js, PostgreSQL, Knex, OAuth

Group trip planning app that enables all trip members to keep track of everything in one centralized place.

14ERS | 14ERS.FIREBASEAPP.COM

Bootstrap, JS, AngularJS, Express, Node.js, PostgreSQL, Knex

A resource for people interested in hiking 14ers (mountain peaks 14k ft+ in CO). All official 14ers are listed along with additional information about each and the most popular related trails. Self-created API was used to render data.

FREE DENVER | FREEDENVER.CO

Bootstrap, JS, Express, Node.js, PostgreSQL, Knex, Meetup API, Google Maps API

A collaborative project that is a resource for free things to do in Denver - ranging from cultural to outdoor activities.

IN MY HOOD | IN-MY-HOOD.FIREBASEAPP.COM

JS, Google Maps API, Bandsintown API, iTunes API

A concert app that automatically knows your location by grabbing your latitude/longitude and allows you to search for concerts in your area via user entry and also recommends related artists' shows.

EXPERIENCE

DIGITAL MARKETING MANAGER JAN 2014 - DEC 2015 BITLY

Increased website traffic 905%, increased lead database 456%, launched new corporate website, and developed and implemented company's first lead scoring and nurturing models, which resulted in higher quality leads and an increased SQO (sales qualified opportunity) conversion rate.

DIGITAL MARKETING COORDINATOR SALESFORCE

Integral member of Salesforce Marketing Cloud team that built an efficient sales intranet that replaced cluttered predecessor and developed an approval process flow that increased marketing project efficiency.

MARKETING COORDINATOR R-SQUARED SERVICES & SOLUTIONS

Increased website traffic 20% and improved lead generation 120% via implementation and rollout of company's first crm and marketing automation systems.
